- Works Offline Anywhere & Everywhere

### How it Works

- Comes with 60+ standard audits
- OR Simply convert your paper based checks on our internet application.
- Download the App and Sync
- That's it, you're up and running.

### On your Phone

- Open the App and select the check from the list assigned to you.
- Answer the questions from preselected lists, add free text, attach photos and obtain signatures.
- Audit's auto score for compliance rating acceptance levels and comparisons

## Simple Powerful

Care Audits makes the least skilled operative into the caring expert. Try it.

### Web Management

- Dashboard manages completed checks
- Simple selection and drill downs into outstanding and completed audits
- Compliance controls and sign offs
- Enter text and attach remedial work documentation & photos
- Simple to add, copy and edit checks
- Unlimited users and unlimited sites
- Unlimited audits with unlimited questions
- Emailing and data export & archiving
- Secure data stored on UK servers to local authority & government standards

### Getting Started

- We set the system up for each customer with their own secure dedicated access.
- The system is easy to understand as well as to set up, use and maintain by you.
- However so you can be up and running from day one we will digitalise some of your checks for you.
- Onsite training is available.

Integrate Care Audits With Other Solutions

### Costs

- All hosting and storage costs are included in the annual licence fee.
- Telephone and email support is available as standard.
- No hidden costs, once up and running the annual costs are around £100 per home p/m for 10 users. Reductions available for volume users.
- You manage the system so no additional costs from us
